## Skills & Competences

### UI/UX/HTML/CSS

Have been working with HTML and CSS ever since the beginning of web design. New trends, devices and constantly evolving technology, create new challenges that are welcomed with anticipation.

### Javascript/Jquery/D3/Frameworks/Git

Improving at a steady pace, constantly looking to evolve and learn better methods and techniques to promote interactions.

### 3D hard-surface modeling/texturing/rendering

I can produce high quality 3d models ready for industrial use and for product representation.

### Image editing, Video compositing, Prints

Deep knowledge of Photoshop, fairly proficient with video editing tools, competent with prints.

### OSes/Office/Hardware

Excellent use of office tools, good hardware knowledge.

### People/Managerial skills

Good communication skills, eager to please people, most times leave a good impression. Constantly trying to understand and adapt to different personalities and cultures. Successfully made my way through managing complex projects in my field of expertise.

## Awards and nominations

Two global awards from the Web Design Index conducted by the Pepin Press in Amsterdam (2002-2005) for commercial websites while working for www.
